Bulk Mail Sample Fee**			Price excl GST	
Size	Dimensions	Lodgement Time	Product Code:	PPSAMFEE
Other	Max 240mm x 360mm x 20mm plus a sample	Standard	Per item	\$0.4000

Publication Mail Evening/Weekend Fee***			Price excl GST	
Size	Dimensions	Lodgement Time	Product Code:	PPEVNGFEE
All	Min 160mm x 240mm x 1.0mm Max 240mm x 360mm x 20mm	Evening/ Weekends	Per item	\$0.2800

Explanations:

* Minimum mailing quantity: The minimum volume that must be met by a customer per mail lodgement.

** Bulk Mail Sample Fee: An additional fee applies if a sample is included with a publication and the inclusion of this sample takes the combined thickness of the publication into the 20mm–32mm range.

*** Evening/weekend fee applies to Publication Mail lodged after 5pm, on weekends, or public holidays by prior arrangement with your local Mail Service Centre Manager.

Zonal Pricing

Zonal Pricing is a pricing structure that charges different prices for mail deliveries to different areas. Every New Zealand postcode containing delivery points has been allocated to one of four “Zones”; Zone A, Zone B, Zone C and Zone D. Zonal Pricing applies to AdCard, FlexiMail, Publication Mail and VolumeMail products. A fifth pricing tier, Invalid Postcode (IPC) applies for postage items with invalid postcodes. Refer below for details.

Valid postcode / invalid postcode

All valid mail items will be priced according to the applicable price point outlined in the Bulk Mail Rate Card tables. All mail items with an invalid postcode will be charged at the IPC postage rate. These are mail items with:

- Missing postcode
- A postcode that doesn’t exist - e.g. invalid number
- Incorrect postcode match to the destination type, e.g. Box Lobby, Rural delivery, urban location; or
- Incorrect postcode match for City OR Suburb (needs to match one of the two).

Please see: nzpost.co.nz/about-us/july2023/q-and-a for more information on Lodgement Data File requirements for your lodgement.

Address Accuracy Percentage (AAP)

The address quality of Bulk Mail is used to assess each lodgement. Each Bulk Mail lodgement will be assessed prior to lodgement and an AAP % rating will be calculated to determine the Bulk Mail pricing tier to be applied. Items with invalid postcodes (IPC) will be excluded from the AAP assessment to avoid a double pricing penalty. Refer to nzpost.co.nz/about-us/july2023/q-and-a for more information on Address Accuracy Percentage requirements.

Lodgement Data File (LDF)

For your Bulk Mail lodgements to be assessed, a Lodgement Data File in a NZ Post approved format must be included with the lodgement manifest for all Bulk Mail products. All mail items with an IPC will be charged at the IPC postage rate. The mapped file can be downloaded from Lodgement Manager to allow you to view the zonal makeup and reasons for invalid items. Please see: nzpost.co.nz/about-us/july2023 for more information on Lodgement Data File requirements of your lodgement.

Internationally Addressed Items

Any internationally addressed items within a Domestic Bulk Mail lodgement will be uprated to the applicable International rate.

Compliance requirements

Non-compliance may result in the Bulk Mail lodgement being returned to you at your cost or being charged at a higher price. The delivery timeframes may be affected by any non-compliance.

To ensure non-compliance is kept at a minimum, we encourage you to contact elsapprovals@nzpost.co.nz or call **0800 697 228** for any mail pieces that you have questions on, or for approval. NZ Post reserves the right to correct any incorrect Statement of Posting forms. If the lodgement documentation does not reflect the characteristics of the actual mailing, it will be changed and we will notify you of the change. Changes could result in your lodgement being charged at a different rate.
